Hi Krista,

Yeah, this timing is pretty tough. I am with you on keeping the meeting on Monday and I'll see what I can do to have *something*. But a script will not be ready by then given only one business day with the data pack.

On Thursday, April 9, 2015, Krista Bessinger <kbessinger@twitter.com> wrote:
Hi Carolyn,

Apologies for shipping the data pack later than expected. Our first script review with Dick is on Monday. I realize that is a tight timeframe for you to turn something around, so let me know if you think it's not feasible to have even a very rough draft by then.

If not, I still think we should still keep the meeting with Dick on Monday. We'll be just 2 weeks out from earnings and since he's been OOO this week, I think it would be good to meet on Monday just to go through the level set and hot topics and get any initial thoughts he has on script direction if there is no draft to review.

Our timeframe is really tight this quarter given his OOO time and earnings date of April 28. He also has other OOO dates coming up between now and earnings, so each meeting on calendar is precious and I think we can make good use of the time.

LMK your thoughts and thanks as always for your help on this.
